30 November 2007

SECURITY PURCHASE PLAN (SPP) RESULTS

APA Group (APA) is pleased to announce that following completion of the SPP, APA issued 23,659,405 new securities to securityholders, raising approximately \$85.0 million. APA now has 458,344,511 stapled securities on issue. Issue Price under the SPP was \$3.5938 per security.

As stated, funds raised have been used to increase APA's financial capacity and reduce the covenanted gearing ratio to approximately 71.5%.

New securities issued under the SPP will rank equally with existing securities and will be entitled to participate in the interim distribution payable for the half year ending 31 December 2007, expected to be paid in March 2008.

As previously advised, in determining the tax cost base for an APT unit and an APTIT unit, securityholders should consider allocating 25% of the Issue Price to an APT unit and 75% of the Issue Price to an APTIT unit.
