This presentation has been prepared by Australian Pipeline Limited (ACN 091 344 704) as responsible entity of the Australian Pipeline Trust (ARSN 091 678 778) and APT Investment Trust (ARSN 115 585 441) (APA Group).

The information in this presentation does not contain all the information which a prospective investor may require in evaluating a possible investment in APA Group and should be read in conjunction with the APA Group's other periodic and continuous disclosure announcements which are available at www.apa.com.au.

All references to dollars, cents or '\$' in this presentation are to Australian currency, unless otherwise stated.

Not financial product advice: Please note that Australian Pipeline Limited is not licensed to provide financial product advice in relation to securities in the APA Group. This presentation is for information purposes only and is not financial product or investment advice or a recommendation to acquire APA Group securities and has been prepared without taking into account the objectives, financial situation or needs of individuals. Before making an investment decision, prospective investors should consider the appropriateness of the information having regard to their own objectives, financial situation and needs and seek professional advice if necessary.

Past performance: Past performance information should not be relied upon as (and is not) an indication of future performance.

Forward looking statements: This presentation contains certain forward looking information, including about APA Group, which is subject to risk factors. "Forward-looking statements" may include indications of, and guidance on, future earnings and financial position and performance. Forward-looking statements can generally be identified by the use of forward-looking words such as, 'expect', 'anticipate', 'likely', 'intend', 'could', 'may', 'predict', 'plan', 'propose', 'will', 'believe', 'forecast', 'estimate', 'target', 'outlook', 'guidance' and other similar expressions and include, but are not limited to, forecast EBIT and EBITDA, operating cashflow, distribution guidance and estimated asset life.

APA Group believes that there are reasonable grounds for these forward looking statements and due care and attention have been used in preparing this presentation. However, the forward looking statements, opinions and estimates provided in this presentation are based on assumptions and contingencies which are subject to change without notice, as are statements about market and industry trends, which are based on interpretations of current market conditions and are subject to risk factors associated with the industries in which APA Group operates. Forward-looking statements, opinions and estimates are not guarantees or predictions of future performance and involve known and unknown risks and uncertainties and other factors, many of which are beyond the control of APA Group, and may involve significant elements of subjective judgement and assumptions as to future events which may or may not be correct. There can be no assurance that actual outcomes will not materially differ from these forward-looking statements, opinions and estimates. A number of important factors could cause actual results or performance to differ materially from such forward-looking statements, opinions and estimates.

Investors should form their own views as to these matters and any assumptions on which any forward-looking statements are based. APA Group assumes no obligation to update or revise such information to reflect any change in expectations or assumptions.

Investment risk: An investment in securities in APA Group is subject to investment and other known and unknown risks, some of which are beyond the control of APA Group. APA Group does not guarantee any particular rate of return or the performance of APA Group.

Non-IFRS financial measures: APA Group results are reported under International Financial Reporting Standards (IFRS). However, investors should be aware that this presentation includes certain financial measures that are non-IFRS financial measures for the purposes of providing a more comprehensive understanding of the performance of the APA Group. These non-IFRS financial measures include EBIT, EBITDA and other "normalised" measures. Such non-IFRS information is unaudited, however the numbers have been extracted from the audited financial statements.

Not an offer: This presentation does not constitute an offer, invitation or recommendation to subscribe for or purchase any security. In particular, this presentation does not constitute an offer to sell, or a solicitation of an offer to buy, any securities in the United States. Securities may not be offered or sold, directly or indirectly, in the United States or to persons that are acting for the account or benefit of persons in the United States, unless they have been registered under the U.S. Securities Act of 1933, as amended (the U.S. Securities Act), or are offered and sold in a transaction exempt from, or not subject to, the registration requirements of the U.S. Securities Act and any other applicable state securities laws.

Non-GAAP financial measures: Investors should be aware that certain financial data included in this presentation are "non-GAAP financial measures" under Regulation G of the U.S. Securities Exchange Act of 1934, as amended. These measures are EBITDA, normalised EBITDA and statutory EBITDA. The disclosure of such non-GAAP financial measures in the manner included in the presentation may not be permissible in a registration statement under the U.S. Securities Act. These non-GAAP financial measures do not have a standardised meaning prescribed by Australian Accounting Standards and therefore may not be comparable to similarly titled measures presented by other entities, and should not be construed as an alternative to other financial measures determined in accordance with Australian Accounting Standards. Although APA Group believes these non-GAAP financial measures provide useful information to users in measuring the financial performance and condition of its business, investors are cautioned not to place undue reliance on any non-GAAP financial measures included in this presentation.

Impact of COVID-19

- Pivotal part of essential service supply chain
- Customers first:
 - Targeted customer “check-ins”
 - Targeted financial assistance for customers in vulnerable circumstances
 - Additional gas market and systems training
- Employees responded to the challenge
- Ample liquidity & available headroom with ratings metrics
- Investment decisions may be delayed

APA’s Crisis Management Team activated in March 2020:

- Liaise with regulators, government agencies, industry groups, customers and suppliers
- Ensure ongoing provision of reliable energy infrastructure services
 - Permits for employees and contractors
 - COVIDSafe working arrangements including access to expert health advice
 - Split teams and roster
 - Sufficient IT capability, capacity and cyber surveillance
- Health, safety and wellbeing of our people

Orbost Gas Processing Plant – Transition Agreement

Orbost has supplied 3.5 PJs into the market since March 2020, reaching a max daily nomination of 53 TJ/d.

- APA and Cooper jointly focused on completing the plant to deliver additional gas supply to the market
- Aligns goals between the parties to maximise stable processing capacity
- Provides for the sharing of costs and revenue during the transition
- Analysis to identify the cause of the foaming that has impeded completion to date is continuing, alongside the technology provider
- Immediate focus areas are:
 - Completion of minor plant modifications
 - Execution of Phase 2 plant works planned for Dec 2020 quarter
- Capital expenditure to date for the plant is approximately \$440 million (to 30 June 2020)

Strategic Imperative highlights (1/4)

customer centric

APA made progress in the journey to put customers at the centre through our Red Dot program and collaborating with Energy Charter signatories across the energy supply chain

our
customer
promise:

Red Dot Program

- **Customer Promise** launched
- Red Dot Program **to improve customer service**
 - Improved outage management notification
 - Expanded customer feedback survey program to track customer satisfaction
 - Stakeholder engagement for regulatory processes
 - Customers and regional suppliers offered support in response to COVID

Energy Charter

- APA first Energy Charter **disclosure report** submitted 30 Sep 2019
- The **Independent Accountability Panel** issued its evaluation report in Nov 2019
 - 32 recommendations
- **#BetterTogether initiatives** are industry wide collaboration opportunities:
 - Improved gas connection services and stakeholder engagement
 - A unified approach to COVID support for customers
 - Ongoing initiatives (e.g. improve pipeline information transparency)

Strategic Imperative highlights (2/4) operational excellence (safety & sustainability)

- ✓ **99.9% gas nomination delivery**
ability to respond to customer needs

- ✓ **Process safety**
rollout of a 3-year program

Health and safety

- **FY2020 TRIFR result 9.09**

- Work under way to **improve overall TRIFR**
- Employee safety results have been pleasing
- New Health, Safety, Environment & Heritage **3-year strategic plan** launched
- **No regulatory penalties** re Work Health and Safety
- **No fatalities**

Notes:

(1) Total reportable injury frequency rate (TRIFR) is measured as the number of lost time and medically treated injuries sustained per million hours worked. All data includes both employees and contractors.

Sustainability

- Developing a **Sustainability Roadmap**, including a Climate Change Management Plan
- Published Climate **Change Position Statement**
- **Aligned our climate disclosures** to the TCFD recommendations
- Second **climate-related scenario analysis** to be published early Oct
- **Scope 1 emissions** for FY19 (as reported to NGRS) increased 1.8%
- **Scope 2 emissions** decreased slightly

Strategic Imperative highlights (3/4) growth & innovation

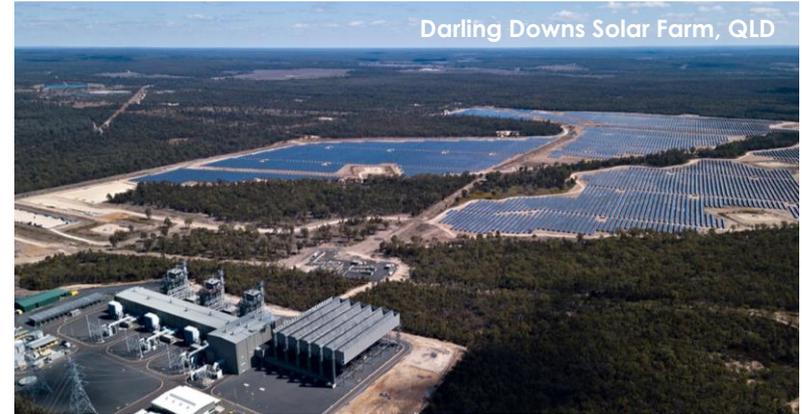

Growth

- **\$1.7 billion plus growth capex** FY2017 – FY2020
- **\$288 million** growth capex in FY2020
- **+5.1% EBITDA growth** in FY2020

Contributing assets include:

- Darling Downs Solar Farm (QLD)
- Badgingarra Wind & Solar Farms (WA)
- Yamarna Gas Pipeline & Gruyere Power Station (WA)

Gruyere Power Station, WA

- **Renewable methane project** – received \$1.1m ARENA funding
- **Renewable hydrogen project** - submitted for ARENA funding for a pilot facility at Badgingarra
- **54%** of power generation fleet is **Renewables**
- **Moomba Sydney Pipeline reliability & capacity increase** – through innovative upgrade of engines & control systems
- **\$139 million** SIB & IT technology capex in FY2020

Innovation

Strategic Imperative highlights (4/4)

Financial Strength

+8.3% OCF/security
to 92.9 cents per security

Ample liquidity
cash & committed undrawn facilities of \$2.5bn

Strong credit metrics
12.2% FFO to Net debt
(APA calculation)

Stakeholder Relationships

Stakeholder engagement
AGP & RBP regulatory processes

Regulatory outcomes & RIS submission
GGP reset; RIS ongoing

outlook & strategy

Rob Wheals

CEO & Managing Director

Long-term success driven by fundamentals

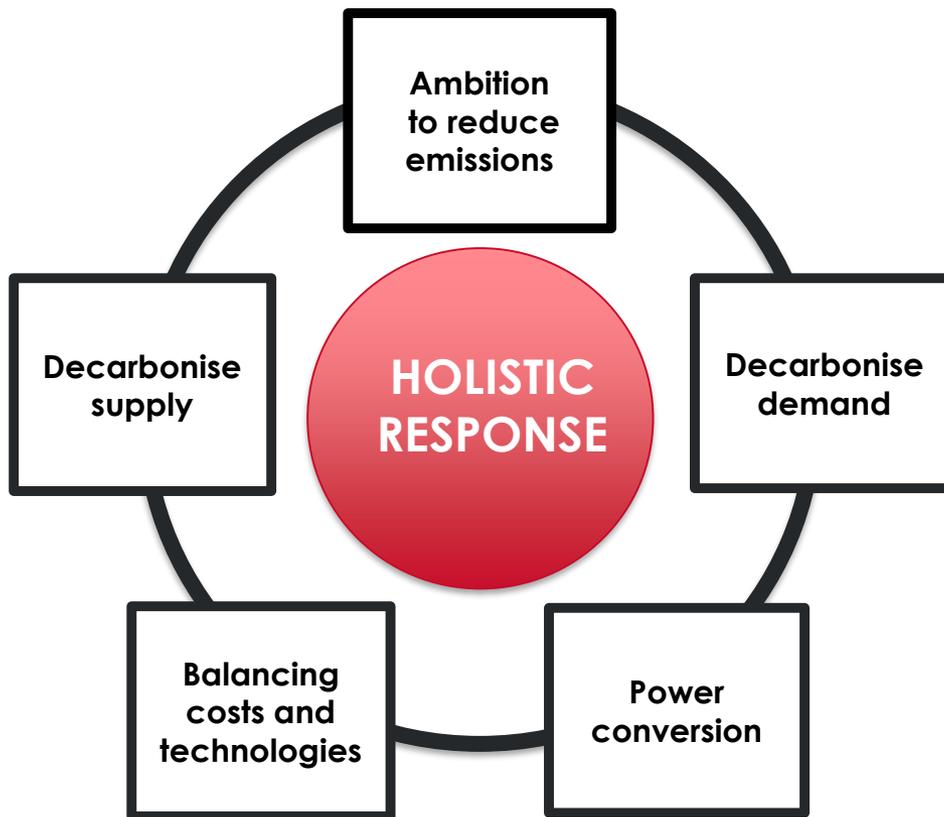

- Growth in global energy demand
- Resilience of our low risk business model through economic cycles
- Portfolio of high-quality long-life assets
- Strong skills and capability to navigate a constantly changing environment
- Operational and safety excellence
- Financial strength and flexibility

Strategy remains relevant for energy transformation

**Demand for energy will continue.
Energy transformation is underway – requires a holistic response.**

- Deliver services our customers value consistent with **APA's Customer Promise**
- Continue to strengthen **asset and stakeholder** management, development and operational capabilities
- **Our growth focus** is to enhance our portfolio of:
 - gas transmission pipelines
 - power generation: gas-fired and renewable energy
 - midstream energy infrastructure assets, including gas storage and gas processing
- Exploring growth opportunities in our core business of gas transmission and distribution in **North America**
- Investigation of **technology transformation of energy**
- Maintain APA's **financial strength**

A spectrum full of business opportunity for APA

Status quo	Partial decarbonisation (~50% by 2050)	Technology Transition decarbonisation (~75% by 2050)	Net zero carbon (~100% by 2050)
------------	--	--	---------------------------------

- Economic transition from coal to gas & renewables
- Some policy intervention
- New technology where economical

- Transition away from coal to gas and renewables
- Partial EV
- Energy efficiency
- New technology through customer adoption

- Carbon power offset
- High EV take-up
- Large-scale energy efficiency
- Net zero carbon fuel & new technologies
 - Biogas; ren. methane
 - CCUS
 - Hydrogen
 - Batteries

- 100% carbon power offset
- Very high EV take-up
- Liquid fuels transition to Hydrogen
- Net zero fuels and other new technologies where electrification not feasible

growth opportunities & progress

EAST

“connect to supply”

- connection to new gas supplies

East Coast Grid – expansion and further FEED studies

Galilee Moranbah Pipeline – Surveys and assessments completed under MoUs

Crib Point Pakenham Pipeline – EES lodged

Western Slopes Pipeline – IPC determination expected in Sep 2020

WORM (VTS) – EES works commenced

Gippsland Basin – Binding agreement with Emperor for pre-FEED

LNG import terminals – continue various discussions

New basins – Bowen Basin, Beetaloo / McArthur Basins, Otway Basin

WEST

“demand”

- new infrastructure for new projects

Demand from new resource projects – Beyondie Potash, Lake Way Potash, Capricorn, MML looping

GGP & EGP expansion – studies & discussions continue, concept design

Gruyere Power Station – full year contribution

Perth Basin – discussions with various proponents continue

ENERGY FUTURE

“lower carbon”

- renewables
- firming power
- new technologies

Dandenong & other PS's – discussions continue

New gas-fired generation – Thomson PS initial works to supplement DPS & LPS

Renewable methane demonstration plant – ARENA funding secured

Hydrogen energy – various opportunities explored, including seeking ARENA funding for a project in WA

NORTH AMERICA

“core skillset”

- target regulated LDC / contracted gas transmission businesses

Due diligence continues – depth of the US gas infra market and strong growth-oriented fundamentals remain attractive

Preferred asset characteristics – regulated and/or contracted businesses, transparent and quantifiable performance record, supportive credit rating metrics, OCF accretion in the first full fiscal year
