CHAIRMAN'S LETTER

“The Bidder, as part of APA Group, is well placed to manage the risks inherent in owning the ethane pipeline as outlined in this Bidder's Statement and can as a result offer full value to EPX Securityholders.”

7 March 2016

Dear Securityholder,

On behalf of APA Group, I am pleased to make an unconditional offer (“**Offer**”) to you to acquire all of your fully paid stapled units in Ethane Pipeline Income Fund (“**EPX**”) (“**EPX Securities**”) for a cash price of A\$1.88 each (“**Offer Price**”). In addition, you will be entitled to retain the declared distribution for the March 2016 quarter of 3.25 cents per EPX Security if eligible on the Distribution Record Date.

The Offer is being made by Australian Pipeline Limited as responsible entity of Australian Pipeline Trust (“**Bidder**”).

The Bidder is part of APA Group, which is Australia's largest natural gas infrastructure business. APA Ethane Limited is the responsible entity of both Ethane Pipeline Income Trust and Ethane Pipeline Income Financing Trust, being the two stapled Australian registered managed investment schemes which comprise EPX. APT Pipelines Limited, a member of APA Group, owns 49.5% of the shares in the responsible entity, APA Ethane Limited. The remaining 50.5% is held by two independent directors of APA Ethane Limited, Nancy Fox and Rick Coles (25.25% each), on behalf of the holders of APA Group stapled securities (comprising the Australian Pipeline Trust and APT Investment Trust). As such, appropriate bid governance and protocols have been implemented for the separation of officers and managers of APA and EPX, including those possessing EPX confidential information and APA Group's acquisition team, to ensure that the interests of both EPX Securityholders and APA Group are protected.

You should accept the Offer because:

- **Recommended Offer** – The independent directors of EPX (being Nancy Fox and Rick Coles) unanimously recommend EPX Securityholders accept the Offer in the absence of a superior offer and subject to an Independent Expert opining that the Offer is fair and reasonable.
 - **Compelling value and substantial premium to current trading prices** – The Offer Price plus the distribution declared by EPX for the March 2016 quarter of 3.25 cents per EPX Security, represents a premium of:
 - 30.1% to the last closing price of EPX Securities on 4 March 2016 of A\$1.47, the last unaffected trading day prior to announcement of the Offer;
 - 33.7% to the 1 week VWAP¹ to 4 March 2016 of EPX Securities of A\$1.43;
 - 37.6% to the 1 month VWAP² to 4 March 2016 of EPX Securities of A\$1.39; and
 - 31.0% to the 3 month VWAP³ to 4 March 2016 of EPX Securities of A\$1.46.
- The Offer Price only, which does not include the distribution declared by EPX for the March 2016 quarter, represents a premium of 27.9% to the last closing price of EPX Securities on 4 March 2016 of A\$1.47, the last unaffected trading day prior to announcement of the Offer.
- **Offer is unconditional with accelerated payment** – The Offer is not subject to any conditions. You will be paid the Offer Price within 5 Business Days from receipt of your valid acceptance.
 - **Cash consideration provides certainty compared to the uncertainty of EPX's business and future distribution profile** – There are material risks to EPX's business as a result of having a single asset (the ethane pipeline) with a single customer (Qenos). Whilst recent changes in relation to the Production Transportation Agreement mean that there is a fixed minimum charge through to 31 December 2018, from 1 January 2019 the terms of the Product Transportation Agreement revert back to a greater reliance on the volume of ethane transported through the pipeline, rather than a fixed charge. The volume of ethane transported on the pipeline is determined by Qenos and its ethane suppliers. This presents higher risk to EPX's future revenues and distribution payment profile. The Offer provides an opportunity to dispose of all your EPX Securities for cash and to realise full and certain value.

1), 2), 3) VWAPs are calculated on the basis of ASX trading data sourced from IRESS without the consent of IRESS to the use of data, as permitted by ASIC Class Order 07/429.

CHAIRMAN'S LETTER CONTINUED

LEONARD BLEASEL AM CHAIRMAN, APA GROUP

– **The Bidder is best placed to offer full value to EPX Securityholders** – The Bidder is part of APA Group, which is Australia's largest natural gas infrastructure business. APA Group has ownership interests in and/or operates approximately A\$19 billion of energy assets, principally for transporting and storing gas. This includes owning and/or operating approximately 15,000 kilometres of natural gas transmission pipelines across mainland Australia, including the Moomba Sydney natural gas pipeline that runs adjacent to the ethane pipeline referred to above.

Accordingly, the Bidder, as part of APA Group, is well placed to manage the risks inherent in owning the ethane pipeline as outlined above and can as a result offer full value to EPX Securityholders.

– **Price of EPX Securities may fall** – The trading price of EPX Securities may fall after the Offer closes.

– **Potential negative consequences for any remaining minority EPX Securityholders** – Should the Bidder gain a majority securityholding in EPX (but is not entitled to compulsorily acquire EPX), those EPX Securityholders who do not accept the Offer may have less influence over the future direction and control of EPX. Under these circumstances the liquidity in trading of EPX Securities may be reduced. The Bidder may also seek to have EPX removed from the official list of ASX, which if permitted by ASX, may result in any remaining EPX Securityholders either having to dispose of their EPX Securities or remaining in a potentially illiquid, unlisted vehicle.

We consider the Offer to be compelling to you as an EPX Securityholder and encourage you to accept the Offer at your earliest convenience. To accept the Offer, please follow the instructions in this Bidder's Statement and the Acceptance Form accompanying this Bidder's Statement.

Yours sincerely

1 REASONS WHY YOU SHOULD ACCEPT THE OFFER CONTINUED

1.1 UNANIMOUS RECOMMENDATION BY THE EPX INDEPENDENT DIRECTORS

The Independent Directors comprising the independent board committee (being Nancy Fox and Rick Coles) unanimously recommend EPX Securityholders accept the Offer in the absence of a superior offer and subject to an Independent Expert opining that the Offer is fair and reasonable.

Robert Wright, EPX's Chairman, is a former director of the APA Group Responsible Entity. Consequently, Robert Wright is not a member of the independent board committee which has been formed by EPX to consider the Offer.

1.2 COMPELLING VALUE AND SUBSTANTIAL PREMIUM TO CURRENT TRADING PRICES

The Offer Price of A\$1.88 is a compelling offer and represents a substantial premium to the trading price for EPX Securities in the period prior to the announcement of the Offer.

The Offer Price plus the distribution declared by EPX for the March 2016 quarter of 3.25 cents per EPX Security, represents a premium of:

- 30.1% to the last closing price of EPX Securities on 4 March 2016 of A\$1.47, the last unaffected trading day prior to announcement of the Offer;
- 33.7% to the 1 week VWAP⁴ to 4 March 2016 of EPX Securities of A\$1.43;
- 37.6% to the 1 month VWAP⁵ to 4 March 2016 of EPX Securities of A\$1.39; and
- 31.0% to the 3 month VWAP⁶ to 4 March 2016 of EPX Securities of A\$1.46.

The Offer Price only, which does not include the declared distribution, represents a premium of:

- 27.9% to the last closing price of EPX Securities on 4 March 2016 of A\$1.47, the last unaffected trading day prior to announcement of the Offer;
- 31.5% to the 1 week VWAP⁷ to 4 March 2016 of EPX Securities of A\$1.43;
- 35.3% to the 1 month VWAP⁸ to 4 March 2016 of EPX Securities of A\$1.39; and
- 28.8% to the 3 month VWAP⁹ to 4 March 2016 of EPX Securities of A\$1.46.

1.3 CASH CONSIDERATION PROVIDES VALUE CERTAINTY

The Offer is an all cash offer.

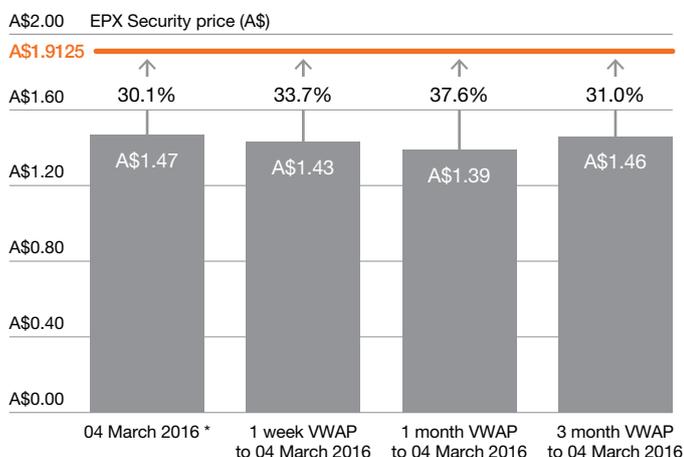

By accepting the Offer, you will receive a cash payment of A\$1.88 for each EPX Security you hold. In addition, you will be entitled to retain the declared distribution for the March 2016 quarter of 3.25 cents per EPX Security if eligible on the Distribution Record Date.

You will not pay stamp duty on the disposal of your EPX Securities should you accept the Offer.

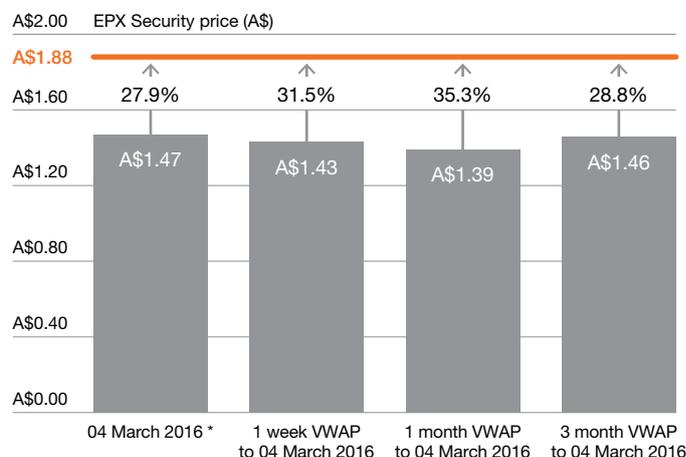

If your EPX Securities are registered in an Issuer Sponsored Holding in your name and you deliver them directly to the Bidder, you will not incur any brokerage in connection with your acceptance of the Offer.

If your EPX Securities are registered in a CHESSE Holding, or if you are a beneficial owner whose EPX Securities are registered in the name of a broker, bank, custodian or other nominee, you should ask your Controlling Participant (usually your broker) or that nominee whether it will charge any transaction fees or service charges in connection with acceptance of the Offer.

PREMIA – OFFER PRICE PLUS DECLARED DISTRIBUTION

PREMIA – OFFER PRICE ONLY

4), 5), 6), 7), 8), 9) VWAPs are calculated on the basis of ASX trading date sourced from IRESS without the consent of IRESS to the use of data, as permitted by ASIC Class Order 07/429.

1 REASONS WHY YOU SHOULD ACCEPT THE OFFER CONTINUED

1.4 IF YOU ACCEPT, YOU WILL AVOID ANY FUTURE RISK RELATED TO AN INVESTMENT IN EPX

Remaining as an EPX Securityholder will mean that you continue to be exposed to the following risks related to its business which may impact on the performance of EPX and the quantum of, and its ability to continue to pay, distributions:

- **Single asset, with a single customer and single significant revenue source** – EPX's only asset is the Ethane Pipeline and it derives its only significant source of revenue from transporting ethane through the pipeline under the PTA. The PTA has a term until June 2030 however EPX's only customer, Qenos may terminate the agreement at any time by providing at least 12 months' notice provided that termination cannot occur before 1 January 2019. If the pipeline is damaged or its ability to transport ethane is otherwise curtailed, the revenues generated by EPX will reduce.
- **Changes to the revenue basis resulting in greater ethane transportation volume risk for EPX from 1 January 2019 onwards** – From 1 October 2013, the basis of calculating revenue under the PTA changed such that the reservation component (i.e. the component not dependent on volumes of ethane transported on the pipeline) was reduced and the throughput component increased, so that a greater proportion of EPX's revenue is now dependent on the volume of ethane transported through the pipeline. With effect from 1 January 2015, further changes were agreed such that if certain annual thresholds relating to the quantity of ethane transported under the PTA and the EBITDA of Qenos' Botany plant are not reached in a calendar year between 2015 and 2018, the reservation charge for that year will be fixed at A\$20 million (adjusted annually by 50% of CPI) and there will be no transportation charge. From 1 January 2019, the tariff reverts to the reservation charge and transportation previously agreed under the PTA (adjusted annually by 50% of CPI).

EPX has stated that "The Fund will continue paying distributions from available net cash flows, which are determined after meeting all costs of the Fund" (Source: FY15 Annual Report). Should volumes fall, this will result in lower throughput revenue which will decrease the net cash flows available for distribution by EPX. Should EPX need to reduce the level of distributions, there is the potential for the security price to also fall.
- **Risks to ethane supply and demand** – The producers extracting ethane from the Cooper Basin may become unwilling or unable to sell ethane to Qenos on terms mutually acceptable to both the producers and Qenos. Risks to ethane supply include insufficient quantities of ethane and a reduction in the incentive for the Cooper Basin producers to sell ethane separately from natural gas. Risks to ethane demand include physical risks affecting the Qenos Botany plant, a significant reduction in the demand for polyethylene manufactured by the Botany plant and the use of alternative feedstocks for the production of polyethylene at the Botany plant.
- **Risks of switching to an alternate use** – In the event that the Ethane Pipeline ceases to transport ethane,

which may arise on or before the expiry of the PTA, there will be technical, operational and commercial risks associated with switching the Ethane Pipeline to an alternate use.

1.5 THE BIDDER IS BEST PLACED TO OFFER FULL VALUE TO EPX SECURITYHOLDERS

The Bidder is part of APA Group, which is Australia's largest natural gas infrastructure business. APA Group has ownership interests in and/or operates approximately A\$19 billion of energy assets, principally for transporting and storing gas. This includes owning and/or operating approximately 15,000 kilometres of natural gas transmission pipelines across mainland Australia, including the Moomba to Sydney natural gas pipeline that runs adjacent to the Ethane Pipeline.

Accordingly, the Bidder, as part of APA Group, is well placed to manage the risks inherent in owning the Ethane Pipeline as outlined above in section 1.4.

1.6 SECURITY PRICE MAY FALL AFTER THE OFFER CLOSES

For the 3 month period prior to 4 March 2016, the last unaffected trading day prior to announcement of the Offer, EPX's Security price traded between A\$1.34 and A\$1.62, closing at A\$1.47 on 4 March 2016.

The Offer Price of A\$1.88 is above the highest price at which EPX Securities have traded in the past 12 months.

While there are many factors that might influence the trading price of EPX Securities, there is a risk that EPX's Security price may fall after the Offer closes, at least in the short term and if no other offer is made for EPX at or above the Offer Price.

The Offer provides an opportunity to dispose of all your EPX Securities, and to realise full and certain value for your entire holding in EPX.

1.7 YOU MAY RISK BECOMING A MINORITY EPX SECURITYHOLDER

Should the Bidder gain a majority securityholding in EPX (but is not entitled to compulsorily acquire EPX), those EPX Securityholders who do not accept the Offer may have less influence over the future direction and control of EPX.

EPX Securityholders should also be aware that in circumstances where they do not accept the Offer and the EPX Securities continue to be quoted on ASX, the liquidity of their EPX Securities may decrease materially.

The Bidder may also seek to have EPX removed from the official list of ASX, which, if permitted by ASX, may result in any remaining EPX Securityholders either having to dispose of their EPX Securities or remaining in an illiquid, unlisted vehicle.

Section 5.5 provides further information of the Bidder's intentions upon gaining control of, but less than 90% of, EPX.

1.8 UNCONDITIONAL OFFER WITH ACCELERATED PAYMENT TERMS

The Offer is not subject to any conditions, including any minimum acceptance condition. The Bidder will pay the Offer Price within 5 Business Days from receipt of a valid acceptance.

INFORMATION ABOUT APA GROUP

4.1 OVERVIEW OF APA GROUP

APA Group is Australia's largest natural gas infrastructure business. It has ownership interests in and/or operates approximately A\$19 billion of energy assets, principally for transporting and storing gas. This includes owning and/or operating approximately 15,000 kilometres of natural gas transmission pipelines across mainland Australia, gas storage facilities, and operatorship of two gas distribution businesses – Australian Gas Networks and Allgas¹⁰ – with over 28,000 kilometres of gas mains and 1.3 million consumer connections across eastern Australia. In addition to its core businesses of gas transmission and distribution, APA Group also holds ownership interests in, and operates, complementary energy infrastructure assets such as gas-fired electricity generation plants, wind farms, gas processing plants and electricity transmission.

APA Group's interests in these assets are held through direct ownership or through minority equity interests in a number of other energy infrastructure enterprises.

APA Group has direct management and operational control over its assets and the majority of its investments, employing around 1,600 employees and approximately 1,200 contractors across Australia. It derives stable revenue through a mix of regulated returns, negotiated revenue contracts, investments and asset management.

APA Group's objective of maximising securityholder value is achieved through expanding and enhancing its infrastructure portfolio, securing low risk, long-term revenue on its assets, providing various services to customers of the assets, operating the business safely and efficiently and generating further value through its varied service offerings.

APA Group is listed on ASX and is included in the S&P ASX 50 Index. Since listing in June 2000, its market capitalisation has increased more than 19-fold to A\$9.5 billion (as at 4 March 2016), and it achieved total securityholder returns of 1,304% or annual compound growth rate of 19.2%¹¹ at the end of the 2015 financial year.

APA Group is headquartered in Sydney, and has assets, investments and offices across Australia.

INTENTIONS

5

5.1 INTRODUCTION

This section 5 sets out the Bidder's intentions, on the basis of the facts and information concerning EPX and the general business environment which are known to the Bidder and the existing circumstances affecting the business of EPX, at the time of preparing this Bidder's Statement in relation to the following:

- a) the continued operation of EPX;
- b) any major changes to be made to the operation of EPX, including any redeployment of the property of EPX; and
- c) any plans to remove the current Responsible Entity of EPIT and EPIFT, being the two stapled Australian registered managed investment schemes which comprise EPX, and appoint a new Responsible Entity.

Final decisions on these matters will, however, only be reached in light of all material facts and circumstances at the relevant time. Accordingly, those statements set out in this section 5 are statements of current intention only which may vary as new information becomes available or as circumstances require. These intentions have been formulated based solely on publicly available information about EPX and its affairs. EPX Securityholders must be fully aware that these intentions remain subject to a more complete investigation after the transaction contemplated by the Offer are implemented and are therefore subject to change.

5.2 RATIONALE FOR THE OFFER

The core business of APA Group, of which the Bidder is part, is owning and operating transmission pipeline assets and related energy infrastructure. The Ethane Pipeline acquisition offers APA Group the opportunity to increase its equity position in a long-term ethane pipeline asset, for which APA Group has the operating and management agreement until January 2017 and the management services agreement until June 2016. The process to extend the term of the management services agreement has commenced.

In the medium term it is expected that the Ethane Pipeline will continue to transport ethane under the existing Qenos contract, which expires in June 2030.

In the event that the pipeline ceases to transport ethane at some point in the future, APA Group believes there is potential to convert the pipeline to transport liquid hydrocarbons from the prospective Cooper Basin oil fields through to Port Botany.

The addition of the Ethane Pipeline to APA Group's portfolio of assets will extend and further diversify APA Group's investment in related energy infrastructure, as well as enable APA Group to expand its footprint into transporting alternate fuels, including potentially liquids in the longer-term, enhancing APA Group's position as an infrastructure owner in Australia's growing energy markets.

5.3 SPECIFIC INTENTIONS

Based on all information known to it, the Bidder has no intention to make changes to the existing operations or property of EPX.

The Bidder may, however, consider replacing the Responsible Entity of EPIT and EPIFT, being the two stapled Australian registered managed investment schemes which comprise EPX.

Final decisions relating to EPX will, however, only be reached in light of material facts and circumstances at the relevant time, having regard to (among other matters), opportunities available in the market, strategic relevance, performance, profitability and prospects.

5.4 INTENTIONS UPON OBTAINING 90% OR MORE OF EPX

If the Bidder becomes entitled to compulsorily acquire the outstanding EPX Securities under Part 6A.1 Division 1 of the Corporations Act, it intends to exercise such rights and then procure the removal of EPX from the official list of ASX and do all other things necessary to achieve those results.

If the Bidder does not become entitled to compulsorily acquire EPX Securities under Part 6A.1 Division 1 of the Corporations Act, it may nevertheless become entitled to exercise general compulsory acquisition rights under Part 6A.2 Division 1 of the Corporations Act. In that event, it intends to exercise those rights if they become available and then procure the removal of EPX from the official list of ASX.

5 INTENTIONS CONTINUED

5.5 OTHER INTENTIONS UPON GAINING CONTROL, BUT LESS THAN 90%, OF EPX

This section 5.5 sets out the Bidder's intentions if the Bidder acquires control of EPX but does not obtain a relevant interest in 90% or more of EPX Securities (and is therefore not entitled to proceed to compulsorily acquire the outstanding EPX Securities):

a) ASX listing

The Bidder will review the ongoing suitability of EPX for listing on ASX. EPX Securityholders should be aware that the Bidder presently considers that, if it was to acquire control of EPX but have a relevant interest in less than 90% of EPX Securities, EPX may not be suited to being listed following the end of the Offer. In these circumstances, APA Group may seek to have EPX removed from the official list of ASX and do all other things necessary to achieve that result as soon as practicable. Ultimately however, the continued listing of EPX will be at the discretion of ASX. ASX has stated that it is generally acceptable for an entity to be removed from the official list of ASX if, as a result of a takeover, the entity only has a small number of remaining security holders so its continued listing can no longer be justified. ASX does not prescribe a minimum securityholding or spread before it will allow delisting to occur. EPX Securityholders should be aware that, if the removal of EPX is permitted by ASX, this would result in any remaining EPX Securityholders either having to dispose of their EPX Securities or remaining in a potentially illiquid, unlisted vehicle. Additionally, EPX Securityholders should also be aware that in circumstances where they do not accept the Offer and the EPX Securities continue to be quoted on ASX, the liquidity of their EPX Securities may decrease materially.

b) Further acquisition of EPX Securities

APA Group may acquire additional EPX Securities under the "creep" provisions of the Corporations Act. In summary, those provisions would relevantly permit the Bidder and its Associates to acquire up to 3% of EPX Securities every six months. APA Group has not yet decided whether it will acquire EPX Securities under the "creep" provisions, as that will depend on (among other things) the extent of voting power of the Bidder and its Associates in EPX and market conditions at the time.

c) Review of distributions

The Bidder will review EPX's current distribution policy and form a final view in respect of the appropriateness of the current distribution payout ratio.

d) Replacement of Responsible Entity

The Bidder may also consider replacing the Responsible Entity of EPX.

5.6 OTHER INTENTIONS IF CONTROL OF EPX IS NOT OBTAINED

If the Bidder does not acquire control of EPX, the Bidder considers it likely that EPX will remain listed on ASX and will continue to execute its current business strategy.

CAPITAL STRUCTURE OF EPX

6.1 CAPITAL STRUCTURE

According to documents lodged by EPX with ASX and ASIC, the total number of EPX Securities on issue as at the date of this Bidder's Statement is 69,302,275. EPX is comprised of two Australian registered managed investment schemes, EPIT and EPIFT, the units in which have been stapled. Each EPX Security comprises a unit in both schemes. The effect of the stapling is that the units in the two Australian registered managed investment schemes may not be traded separately.

6.2 DETAILS OF RELEVANT INTERESTS OF BIDDER AND ITS ASSOCIATES IN EPX SECURITIES

At the date of this Bidder's Statement, the Bidder and its Associates had a relevant interest in 6.08% of EPX Securities.

At 16 March 2016, being within 3 trading days before the first Offer was sent to EPX Securityholders, the Bidder and its Associates had a relevant interest in 10.70% of EPX Securities. Following this date the Bidder may purchase additional EPX Securities on market (in accordance with the Corporations Act), increasing its relevant interest in EPX Securities.¹²

6.3 DETAILS OF VOTING POWER IN EPX

The Bidder and its Associates' voting power (as that term is defined in the Corporations Act) in EPX as at the date of this Bidder's Statement was 6.08% of the total votes that may be cast at a meeting of EPX Securityholders.

As at 16 March 2016, the last practicable date before the first Offer was sent to EPX Securityholders, the Bidder and its Associates' voting power (as that term is defined in the Corporations Act) in EPX was 10.70% of the total votes that may be cast at a meeting of EPX Securityholders.¹³

6.4 DETAILS OF RELEVANT INTERESTS OF BOARD OF THE APA GROUP RESPONSIBLE ENTITY IN EPX SECURITIES

At the date of this Bidder's Statement, the following directors of the APA Group Responsible Entity (and their Associates) had the following relevant interests in EPX Securities:

- Steven Crane and his Associates – 300,000 EPX Securities;
- John Fletcher and his Associates – 8,000 EPX Securities; and
- Russell Higgins and his Associates – 28,400 EPX Securities.

6.5 DEALINGS IN EPX SECURITIES

Neither the Bidder nor any Associate of the Bidder, provided, or agreed to provide, consideration for an EPX Security under a purchase or agreement during the period of four months ending on 16 March 2016, being within 3 trading days before the first Offer was sent to EPX Securityholders, other than as follows:

Date of acquisition	Number of EPX Securities	Price per EPX Security	Total consideration
7 March 2016	2,845,853	A\$1.9125	A\$5,442,693.86
8 March 2016	156,469	A\$1.9125	A\$299,246.96
10 March 2016	122,500	A\$1.9125	A\$234,281.25
15 March 2016	79,032	A\$1.88	A\$148,580.16

The Bidder may acquire EPX Securities on market from the date of this Bidder's Statement until the end of the Offer Period. The Bidder has obtained ASIC relief from section 621(3) of the Corporations Act such that the Offer Price may be below the highest price paid for EPX Securities since the March 2016 distribution was announced, by the amount of the distribution. Specifically, the ASIC relief permits APA Group to acquire EPX Securities on market at a price of up to A\$1.9125 (equal to the Offer Price plus the declared distribution for the March 2016 quarter of 3.25 cents per EPX Security) until EPX Securities begin trading "ex" distribution. From the "ex" date EPX Securities may be acquired on market at a price up to the Offer Price.

The Bidder may also seek to acquire EPX Securities on market after the last practicable date before the first Offer was sent to EPX Securityholders. Details of any such acquisitions which result in a movement of at least 1% in the Bidder's holding of EPX Securities will be provided to ASX in accordance with the requirements of the Corporations Act.

The Bidder and its Associates have not disposed of any EPX Securities during the period of four months ending on the day immediately before the date of the Offer.

6.6 INDUCING BENEFITS GIVEN DURING PREVIOUS FOUR MONTHS

Other than as set out in section 6.5, neither the Bidder nor any Associate of the Bidder has, during the period of four months before the date of this Bidder's Statement, or in the period between the date of this Bidder's Statement and the date of the Offer, given, offered or agreed to give a benefit to another person which was likely to induce the other person, or an Associate, to:

- accept an Offer; or
- dispose of EPX Securities,

and which benefit was not offered to all holders of EPX Securities under the Offer.

6.7 NO ESCALATION AGREEMENTS

Neither the Bidder nor any Associate of the Bidder has entered into any escalation agreement that is prohibited by section 622 of the Corporations Act.

12), 13) The Bidder will provide details to ASX during the bid period of any movement of at least 1% in its holding of EPX Securities in accordance with the Corporations Act.

TAXATION CONSIDERATIONS

7

7.1 INTRODUCTION

The following is a general outline of the Australian income tax, GST and stamp duty consequences to EPX Securityholders of the acceptance of the Offer. The comments set out below are relevant only to those EPX Securityholders who hold their EPX Securities as capital assets (i.e. the comments below do not apply to EPX Securityholders who hold their EPX Securities on revenue account or as trading stock).

EPX Securityholders who are not Australian residents for tax purposes should take into account the tax consequences under the laws of their country of residence, as well as under Australian law, of acceptance of the Offer.

The following outline is based upon Australian taxation law, established legislative interpretation and administrative practice in effect at the date of this Bidder's Statement, but it is general in nature and is not intended to be an authoritative or complete statement of the laws applicable to the particular circumstances of every EPX Securityholder. EPX Securityholders should seek independent professional advice in relation to their own particular circumstances.

7.2 AUSTRALIAN RESIDENT EPX SECURITYHOLDERS

Capital Gains Tax ("CGT")

Acceptance of the Offer will involve the disposal by EPX Securityholders of their EPX Securities for Australian CGT purposes.

Each EPX Security is a stapled security comprising two units which cannot be traded separately, being a unit in EPIT and a unit in EPIFT. However, each unit in EPIT and each unit in EPIFT should remain separate assets for Australian CGT purposes. The transfer of an EPX Security should therefore give rise to a separate CGT event in respect of the units held in EPIT and EPIFT.

Time of CGT event

The time of the CGT event in respect of the transfer of EPX Securities should be the time when the contract for sale is entered into (being upon acceptance of the Offer).

Capital gains and losses

Australian resident EPX Securityholders may make a capital gain or a capital loss on the transfer of each EPIT and EPIFT unit. A capital gain should arise where the "capital proceeds" from the disposal of each EPIT and EPIFT unit are more than the "cost base" of the EPIT and EPIFT unit, respectively. A capital loss should arise where the "capital proceeds" for each EPIT and EPIFT unit are less than the "reduced cost base" of each EPIT and EPIFT unit, respectively.

EPX Securityholders may offset any current year or prior year capital losses which are available against capital gains derived from the sale of their EPX Securities, before applying the CGT discount, if available (refer below).

Net capital gains after reduction for any available capital losses and the CGT discount should be included in assessable income and are subject to income tax. A net capital loss arising from the sale of your EPX Securities may not be deducted against other ordinary income for income tax purposes, but may be carried forward to offset against future capital gains (subject to satisfying certain carry forward loss tests for companies).

Capital Proceeds

The capital proceeds should be determined based upon the Offer Price. Under the terms of the Offer, EPX Securityholders will receive a combined amount for their EPX Securities.

For CGT purposes, the consideration received on disposal of each EPX Security will need to be apportioned between the unit in EPIT and the unit in EPIFT.

Under Australian taxation law, the apportionment of the Offer Price between the units in EPIT and EPIFT should be done on a reasonable basis. A reasonable method of apportionment may be the relative weighting of the net assets held by EPIT and EPIFT. Based upon guidance published by EPX, as at 31 December 2015 the net asset weighting was 62% to EPIT and 38% to EPIFT. Securityholders will ultimately need to make their own independent decision as to what is a reasonable basis for apportioning the proceeds from the sale of their EPX Securities between the units in EPIT and EPIFT.

Cost base

The cost base of each EPX Security generally includes the cost of acquiring the EPX Security plus any incidental costs incurred upon acquisition and/or disposal that are not deductible to the EPX Securityholder. EPX Securityholders should apportion the cost base of the EPX Securities as between each EPIT unit and EPIFT unit. The apportionment of the cost base should be done on a reasonable basis. A reasonable method of apportionment may be the net asset weighting between EPIT and EPIFT for the period(s) that the EPX Securityholder acquired their EPX Securities. EPX Securityholders will ultimately need to make their own independent decision as to what is a reasonable basis for apportioning the cost base of their EPX Securities between the EPIT and EPIFT units.

In the case of the EPIFT units, the cost base may have been previously reduced by returns of capital and tax deferred distributions made to the EPX Securityholders.

7 TAXATION CONSIDERATIONS CONTINUED

CGT discount

Australian tax resident individuals, complying superannuation entities or trustees that have held EPX Securities for at least 12 months may be entitled to discount the amount of any capital gain (after application of capital losses) from the disposal by 50% in the case of individuals and trusts, or by 33.3% for complying superannuation funds.

No CGT rollover relief

EPX Securityholders who accept the Offer will be disposing of their EPX Securities for a cash amount and therefore CGT rollover relief should not be available to EPX Securityholders. Accordingly, there should not be a deferral of any capital gains made by EPX Securityholders upon disposal of their EPX Securities.

7.3 NON-RESIDENT EPX SECURITYHOLDERS

EPX Securityholders who are not Australian residents for income tax purposes are generally not subject to Australian capital gains tax on the disposal of EPX Securities provided they and their “Associates” do not hold 10% or more of the EPX Securities on issue at the time of disposal, and have not (together with “Associates”) held 10% or more of the EPX Securities on issue throughout a 12 month period in the 24 months prior to the disposal of their EPX Securities.

In the event that a non-resident EPX Securityholder derives a taxable capital gain on sale of its EPX Securities the CGT discount is not available.

7.4 AUSTRALIAN GST

EPX Securityholders should not be liable to GST in respect of a disposal of those EPX Securities.

7.5 STAMP DUTY

There should be no stamp duty payable by EPX Securityholders on disposal of their EPX Securities.

ADDITIONAL INFORMATION

12

12.1 GOVERNANCE ARRANGEMENTS

APTPL owns 49.5% of the shares in EPX RE. The remaining 50.5% is held by two independent directors of EPX RE, Nancy Fox and Rick Coles (25.25% each), on behalf of APA securityholders. As such, appropriate bid governance and protocols have been implemented for the separation of officers and managers of APA and EPX, including those possessing EPX confidential information and APA Group's acquisition team, to ensure that the interests of both EPX Securityholders and APA Group are protected.

12.2 ASIC RELIEF

ASIC has published various "Class Order" instruments providing for modifications and exemptions that generally apply to all persons, including APA Group, in relation to the operation of Chapter 6 of the Corporations Act.

Amongst others, APA Group has relied on the modification to section 636(3) of the Corporations Act set out in paragraph 5(d) of ASIC Class order 13/521 "Takeover Bids" to include references to certain statements which are made or based on statements made in documents lodged with ASIC or ASX. Pursuant to Class Order 13/521, the consent of the relevant person is not required for the inclusion of such statements in this Bidder's Statement. As required, APA Group will make available a copy of these documents (or relevant extracts of these documents), free of charge, to you and other EPX Securityholders who request it during the Offer Period. To obtain this information please call the APA Offer Information Line on 1800 426 150 (toll free within Australia) or +61 1800 426 150 (from outside Australia) between 8.30am and 5.30pm (Sydney Time), Monday to Friday.

ASIC has granted relief from sections 621 and 651A of the Corporations Act to the Bidder. The relief permits the Bidder to purchase securities on market for an amount up to the Offer Price plus the amount of the distribution declared by EPX for the March 2016 quarter of 3.25 cents per EPX Security, until EPX Securities begin trading "ex" distribution, without having to increase the Offer Price by the amount of that distribution. In addition, ASIC granted relief from section 636(1)(k)(ii) to permit the Bidder to disclose its relevant interest in EPX Securities within 3 trading days before the first Offer was sent to EPX Securityholders. This relief permits the Bidder to disclose its relevant interest in EPX Securities in this Bidder's Statement at a date other than immediately before the first Offer was sent (see section 6.2).
